WELCOME TO A NEW ERA OF BANKING

08 DEC, 2014
INTRODUCING THE DIEBOLD 3550

DUBAI, UAE
The Diebold 3550 was introduced at the Middle East ATM Industry Association Conference.

Versatile:
Capable of bulk cash depositing, full recycling or a combination of deposits and dispense to handle a higher volume and a wider variety of transactions.

Efficient:
Lower cost of ownership due to module improvements and advanced data analytics.

Accurate:
Quickly validates, denominates and counts deposits of up to 200 notes for fast transactions.

MEET THE DIEBOLD 3550

By lowering your business's operating costs through process efficiency, the Diebold 3550 is a cash-recycling terminal that improves ROI. A cost-effective option for busy locations, it also meets consumer demand for anywhere, anytime access to secure and consistent self-service banking.

08 DEC, 2014
INTRODUCING THE DIEBOLD 3700

DUBAI, UAE
The Diebold 3700 was launched at the Middle East ATM Industry Association Conference.

ANNOUNCING THE DIEBOLD 3700

Giving your customers easier access to their money while making it easier for you to save yours.

A highly configurable cash and check platform with an optimized footprint, the Diebold 3700 deposit recycling terminal delivers full functionality while diminishing the need for expensive cash replenishments to please customers and increase profitability.

Versatile:
Highly flexible cash deposit, dispense and recycling; optional check acceptance and coin dispense terminals meet the needs of individual branches and customers.

Interactive:
Validates, denominates and counts deposited currency and images checks for an accurate, personalized experience.

Streamlined:
The fully automated cash flow process includes high note capacity and quick cash recirculation for faster and more consistent self-service.

12 NOV, 2014
INTRODUCING THE DIEBOLD 9900

CHICAGO, USA
The Diebold 9900 was introduced at the Bank Administration Institute Retail Delivery event.

Fast:
It does more transactions faster and more accurately so you keep your customers happy instead of keeping them waiting.

Flexible:
Performs a wide array of transactions utilizing a scalable design to allow for solution growth as your business grows. Multiple support options allow customers a choice of self- or assisted-service.

Smart:
Connects you to your customers by freeing tellers to engage visitors, delivering personalized offers, and providing access to specialists via video.

MEET THE DIEBOLD 9900

In banking, one thing remains constant: it's about relationships.

By creating stronger connections with customers, the Diebold 9900 affirms the branch as the heart of your financial institution by providing service that is fast, effective, efficient, reliable, and secure.

14 OCT, 2014
INTRODUCING THE DIEBOLD 5500

LONDON, UK
The Diebold 5500 was launched at ATM Industry Association Conference.

INTRODUCING THE DIEBOLD 5500

As technology continues to advance, consumers expect a higher level of accessibility in virtually all facets of their lives – including banking.

The 5500 delivers on the need for around-the-clock ATM availability, lower total cost of ownership, best-in-class security features and advanced technologies that offer a comprehensive suite of solutions.

[View the 5500](#)

Efficient:
By using advanced technologies to simplify operations and increase productivity and performance, the Diebold 5500 lowers your total cost of ownership.

Secure:
The Diebold 5500 provides industry-leading protection against physical and logical security attacks. A portfolio of comprehensive security features are offered, including ActivEdge™, the industry's first anti-skimming card reader that prevents all known forms of skimming.

Accessible:
The high definition touchscreen display, vibrant colors, mobile-ready capability, and optional two-way Concierge Video Services make the 5500 series easy and convenient for your customers to use anytime and anywhere.
