Go cuckoo for Christmas!

The holidays are when we come together with friends and family to celebrate with traditions — new and old. This year we're doing just that by collaborating on a Christmas bundle with fellow Swiss brand SwissKoo, makers of classic Swiss cuckoo clocks with a contemporary twist.

We not only share a building with SwissKoo, who like us have a small but dedicated team. We both also agree on the importance of Swiss quality design and artisanal craftsmanship that combines superior materials with the best of traditional know-how and modern techniques.

Now you can **pair one SwissKoo cuckoo clock with one, two or four pairs of our classic dark grey Mel slippers**. By joining these two products together in packages that start at just 200 USD/CHF.

Crafted out of red or natural wood and held together with little wooden pegs just like a Swiss chalet, each clock is made to order with such care and

dedication that we only have 24 of these combinations to share. As you can imagine, this this takes time, but don't worry — they're guaranteed to arrive by Christmas Eve.

Get yours before they fly, just like time.
